

Page 4, between lins 6 and 7, insert the following new paragraph

For convenience, the numbering of the equations in this specification are 5 - 13 and 18-23. The numbers 1-4 and 14-17 have been omitted.

Page 20, paragraph starting at line 1, amend to be as follows:

MPNextInit = Initial moisture percentage at dryer part inlet
for simulation of steam pressure prediction

BD₁ = Bone-dry ~~coated~~ basis weight (g/m²) before grade change

BD₂ = Bone-dry ~~coated~~ basis weight setpoint (g/m²) after
grade change

V₁ = Machine speed (m/min) before grade change

V₂ = Machine speed (m/min) after grade change

A₁ = Ratio of change in dryer inlet moisture percentage
to change in basis weight

A₂ = Ratio of change in dryer inlet moisture percentage to
change in machine speed.
